

Brand New OCT

Marsden Eye Specialists is proud to announce that we have obtained the brand new ZEISS PLEX Elite 9000 Swept Source OCT. This OCT is only given to clinics with a robust medical research department, and we are very fortunate to be one of the few practices in the country with this machine. This machine allows clinical researchers the potential to see deeper, wider and in more detail from the vitreous to the sclera in the posterior segment. **(image description: neovascularization network in patient with diabetic retinopathy)**

Theatre Renovation

We have recently updated our sterilizing department in order to meet new Australian standards. A fresh coat of paint, new furniture improved lighting, and flooring have definitely improved our theatre's aesthetics.

Waiting and being prepped for eye surgery can be a very daunting experience! We at Marsden Eye Specialists feel proud that our patients can feel safe and relaxed in our facility, and a renovation helps reinforce our ethos.

Don't forget to follow us on our social media channels

Dry Eye Clinic

Marsden Eye Specialists would like to give a special mention to our orthoptic led dry eye clinic held in our Parramatta rooms. Patients are given a comprehensive assessment which include slit lamp examination, tear osmolarity and a detailed assessment on our keratograph. The keratograph is a comprehensive machine that looks at tear break up time, tear film assessment and meibomian gland photography to name a few.

If you would like more information, please contact us at enquiries@marsdeneye.com

Welcome

We would like to welcome Faraz as our brand new Marsden Liaison Officer. He will be handling all our marketing and social media channels, as well being a direct point of contact for our referrers for Marsden Eye Specialists.

For any questions or queries, you can contact him via email at faraz.ahmed@marsdeneye.com

Upcoming Educational Events

Marsden Eye Specialists pride themselves on their educational events for optometrists and general practitioners. During the challenging times over the peak of the COVID-19 Pandemic, we tried to ensure we maintain the same standard of quality in our educational events. We have currently adopted a hybrid approach to our seminars where clinicians have the choice of attending in person, or watch our specialists talk via live stream services. Please email faraz.ahmed@marsdeneye.com if you would like to know when our next educational event is and how you can be a part of it.

We are on Oculo

Marsden Eye Specialists are on Oculo. For your convenience you may send us referrals through the Oculo Platform. if you have any enquiries please call us on (02) 9635 7077 or email us at admin@marsdeneye.com

Thank You

Marsden Eye Specialists would like to thank you for entrusting your patients to our care. We have new patient appointments available every day and all urgent referrals are seen the same day by one of our specialists.

We have office locations throughout Western Sydney to provide easy access to the latest diagnostic and treatment options, as well as access to clinical trials for your patients.
